About Me

Detail-driven and innovative software development professional with a Master's in Computer Applications. Leveraging strong programming skills in React, Redux, and JavaScript to drive growth. Passionate about software solutions, I bring a unique blend of analytical thinking and creative problem-solving. Eager to collaborate with forward-thinking teams on cutting-edge projects, I'm dedicated to making a meaningful impact in the tech industry.

Experience

WhatsTool Business

Intern as Frontend Developer(January2024 - July2024)

- Built and deployed scalable web applications using React, Redux, and JavaScript
- Collaborated with cross-functional teams to design and implement new features, ensuring seamless integration and optimal performance
- Implemented responsive UI/UX designs, boosting mobile user experience by 25%
- Utilized Git for version control and contributed to reducing bugs through thorough testing and debugging

Key Skills:
- Frontend development: React, Redux, JavaScript,Tailwind CSS, HTML/CSS
- UI/UX design: Figma
- Version control: Git

Education

2024
Vinoba Bhave University
MCA

I completed my Master of Computer Applications (MCA) from Vinoba Bhave University in 2024, specializing in software development, database management, and computer networks. During my studies, I maintained quite good GPA. My coursework included Advanced Database Management, Software Engineering, and Network Security. I also developed a web app for Pool Management System as part of my projects, showcasing my ability to apply theoretical knowledge to practical solutions.

2022
AISECT University
BA.Hons

I completed my Bachelor of Arts in English from AISECT University in 2019, with a focus on English literature, cultural studies, and rhetoric. Throughout my studies, I maintained the GPA so well and was recognized on the Dean's List. My coursework included British Literature, American Literature, and Contemporary Literary Theory. I also completed a capstone project analyzing the works of Shakespeare and their impact on modern literature, demonstrating my ability to conduct in-depth literary analysis and research.

2016
Vivekananda Central School
Xth

I completed my 10th grade from Vivekananda Central School in Hazaribag, Jharkhand in 2016, achieving a strong academic record with a focus on core subjects such as Mathematics, Science, and English. I consistently performed well across all subjects, earning recognition for my dedication and hard work. My coursework included advanced topics in Algebra, Physics, and Literature, which helped build a solid foundation for my further studies. Additionally, I actively participated in various extracurricular activities, including the science club and debate team, demonstrating my well-rounded abilities and commitment to personal growth.

Projects

StoryFlicker(A full-stack blog app)

Developed and deployed a full-stack blog application using React, Redux Toolkit, and Appwrite. Implemented secure user authentication, efficient state management, and a responsive UI with Tailwind CSS. Key features include a rich blog editor and versatile blog writing capabilities, enhancing user engagement by 40%.
